

2011 National Award Winner

In January of 2011, **Steinbrecher Painting** was honored to receive the **PIPP Award (Picture It Painted Professionally)** from the **Painting and Decorating Contractors of America (PDCA)**, The award was bestowed in honor of our exemplary work on new construction and expansion at **The DECC Arena** in Duluth, Minnesota.

The finished project showcases the master level of workmanship in painting of structural steel and concrete, decorative sandblasting,

wallcovering installation, finishing of concrete floors, application of non-skid floor coatings and general painting.

We have been very satisfied with Steinbrecher's commitment to safety, professionalism, and dedication to customer satisfaction. Steinbrecher has maintained or exceeded our project schedules while responding to coordination issues, design challenges, and harmoniously working with numerous other subcontractors and the Design Team.

Steinbrecher has also excelled at attention to detail and upholding the highest quality workmanship. Steinbrecher has been instrumental at the DECC in maintaining Mortenson's quality plan in performing a sandblasting mock-up for review, prepping the exposed concrete floors for sealing, creating a mock-up and template for stairwell hazard striping, completing punchlist items, and having no punchlist items on wallpaper work.

Kevin Dalager — Project Manager, Mortenson Construction

Quality Commercial Painting and Wall Covering Specialists

HISTORY

Steinbrecher Painting was established as a small commercial contractor in 1990 by Lee Steinbrecher. Over the years, the ceaseless **dedication and hard work** of the Steinbrecher family and its team of employees has positioned us as a leading contractor in the ever changing commercial painting and wall covering industry across the upper midwest. This region includes Minnesota, North and South Dakota, Wisconsin and Iowa.

Highly respected as a union contractor, we offer a full line of services to fill the **diverse needs of today's commercial painting and wallcovering market**. This includes specialty effects and wall murals, as well as industrial, non-slip floor coatings.

Use of **innovative technology** as well as a management style that **adapts easily to change** have kept us ahead of the competition, and has had a significant impact on our success in the industry.

OUR SERVICES

- INTERIOR AND EXTERIOR PAINTING
- WALLCOVERING
- FLOOR COATINGS
- GRAPHICS/MURALS
- SPECIALTY APPLICATIONS

Your crew has received high praise from the Elk River staff. They were very flexible, patient and the job looks great. I especially appreciate the patterned look to the paint on wallpaper. You had a great suggestion on that!

John Mollner • Director of Facility Services, Fairview Northland Hospital

VALUES

At **Steinbrecher Painting** we attribute our long term achievements to the integrity and solid work ethics of both office and field employees, who provide a combination of quality workmanship and superior customer service.

We let integrity be our guide.

I wanted to tell you what a "fantastic" job your company has done at Chatfield. This is my third school construction project as a superintendent and by far, your crew has been the easiest to work with and I believe the fastest painters I have ever had. I just wanted you to know how pleased I am with the job they have done.

Don Hainlen • Superintendent, Chatfield Schools

Quality approach. Proven results.

GOING GREEN

Steinbrecher Painting is committed to implementing the most innovative processes and practices possible to ensure that we are being **environmentally responsible**.

Proud to use quality GREEN products from Sherwin Williams.

- We use proper surface preparation and application methods that help increase the lifespan of coatings.
- By **selecting top quality, durable coatings**, we minimize the need for frequent repaints and reduce emissions and waste.
- We are converting from solvent-based materials to water-based materials which are **LEED compliant**.
- **We recycle all solvent-based materials.** They are then used for both biofuel and for manufacturing new concrete blocks with the ash base.
- **We donate excess water-based paint inventory** to local charities, schools and residents versus disposing of the product in landfills.

PROJECT FOCUS

- HOSPITALITY
- HEALTH CARE
- EDUCATION
- SENIOR HOUSING
- PLACES OF WORSHIP
- BANKS
- RETAIL
- RECREATION
- GOVERNMENT

From associations dating back to our initial project together at the Grand Casino Mille Lacs in 1992, through the Sheraton Woodbury project in 2008, thank you for the continued successful working relationship. Also, both the Owner and Architect of the Sheraton Woodbury project had high praise for Steinbrecher Painting, Inc's quality of workmanship.

Larry Oestenstad • Senior Project Manager, JE Dunn Construction
